PRODUCT DURABILITY

Starlite® roof and ceiling insulation products are manufactured in South Africa by Isover, a division of Saint-Gobain Construction products. The Starlite® is manufactured at their plant situated in Springs according to ISO 9001:2008 Quality Management System standards and in 2012 the plant also achieved ISO 14001 certification.

All Isover's glasswool insulation products carry a performance warranty according to the figures as stated in our data sheets over their useful life-span of up to 50 years. As long as the products are installed according to the installation guidelines and specifications under normal environmental conditions they will last the life of the ceiling and/or roof that they have been installed in conjunction with.

Reference is also made to the specifications for Handling & Storage and the Installation Instructions.

Starlite® is:

- Chemically inert and will not cause or accelerate corrosion of steel, stainless steel, aluminium or copper and fully compatible with all standard building materials and components.
- Non-hygroscopic and will not breed or promote fungi, mould or bacteria nor sustain vermin.
- Maintenance free and will not readily age providing exceptional product life.

ROOF INSULATION • CEILING INSULATION • CLADDING INSULATION • RIGID FOAM BOARD • RIGID FIBRE BOARD • FLEXIBLE FACED FIBRE • ALUMINIUM PROFILES • PANELS • WALL & FLOOR INSULATION • MINERAL FIBRE • GLASS FIBRE • ACCESSORIES
